PROFILE

Bachelor of Computer Science (Cum Laude) with a strong focus on Software Quality Assurance. Experienced in manual and automation testing, including test case design, test execution, defect tracking, and mobile testing. Proficient in Python, Selenium, and API testing (Postman) to ensure software quality, performance, and reliability. Demonstrated ability to identify defects, analyze root causes, and improve testing strategies within Agile environments. Detail-oriented, fast learner, and highly adaptable, with a strong commitment to continuous improvement and delivering high-quality software and user experience.

WORKING EXPERIENCES

□ PT. Bank Syariah Indonesia – Jakarta

April 2025 - Present

Manual Tester - Software Quality Assurance

- Performed end-to-end testing on Temenos T24 (R10/R24) Parameter module across SIT, UAT, and regression to ensure system accuracy and stability.
- Designed and executed test cases, including smoke, integration, and regression testing for multiple release cycles.
- Accelerated completion of 1,071 SIT test cases to 1.5 months vs 6-month target (~75% faster / 4x faster), maintaining 35+ test cases/day; drove defect validation, retesting, and deferred test case tracking to ensure release quality.
- Managed defect tracking in JIRA and supported UAT with business users to validate workflows and approval scenarios.
- Collaborated in Agile Scrum teams with developers and QA to support sprint delivery and defect resolution.

□ PT. Bank Syariah Indonesia – Digilab BSI Yogyakarta

October 2024 – Maret 2025

IT Team – Software Quality Assurance

- Analyzed project requirements to identify risks and define testing scope and objectives.
- Created and executed manual test cases, test scenarios, and test steps to validate system functionality.
- Developed automation scripts using Python (PyCharm) and Selenium IDE for end-to-end testing.
- Monitored project progress and reported test results, defects, and daily updates to support continuous improvement.

PROJECT EXPERIENCES

▣ Monitoring Project

Oktober 2024 – Maret 2025

Website Monitoring Project – Software Quality Assurance

- Supported a project monitoring application for Wholesale Banking to track project progress, status, and performance.
- Validated key features such as project input, progress updates, status tracking, and reporting dashboard.
- Ensured end-to-end business flow from project input → progress update → monitoring → reporting runs accurately.
- Tested user roles and workflows to ensure proper access, data accuracy, and reliable reporting for decision-making.

▣ Core Banking T24

April 2025 – Present

R10 to T24 Migration | Head Office – Software Quality Assurance

- Worked on Temenos T24 core banking system, covering CIF, CASA, financing, payments, and reporting modules.
- Focused on Head Office (Parameter module), managing product configuration, business rules, transaction limits, and approval workflows across branches.
- Validated end-to-end business flows from customer onboarding, account/financing setup, transaction processing, approval, to reporting.
- Supported migration from T24 R10 to newer version, ensuring data integrity, configuration accuracy, and system stability.

EDUCATION

Universitas Ahmad Dahlan | Bachelor's Degree Informatics

GPA: 3.70/4.00

2020 – 2024
